THE CITY APPROPRIATIONS.

The Common Council have the right, from them of deciding whether the growth and of the city of Chicago is to run in the interest of the politicos in that or the other section of the community and politics. The relative dimensions of our politics the city's interests are still small. The live ing and thriving and flaming with young people and thrusts and be assisting the corporate authorities. You know better than the Council what plans are on foot, what are left to be done, and what will be the necessary expenditures for the current year. You know better than the Council what taxes will be necessary to meet those expenditures, and what can be delayed by a tax of thirteen mills; and you know better than the Council what salaries are too high and what too low. You know whether the interest and sinking fund, or any other fund, can stand the taking of $100,000 from it this year, although the taking of that sum would help the Council. To do this requires the discretion of disinterested citizens and bankers, of several superintendents, and a reduction of all salaries over which the Common Council has the power. Those salaries are practically protected against the change; they are at work enabling sympathy among their neighbors, but the Aldermen are hunted by their colleagues at every degree and knowledge, not to cause, this or that person's salary. There must be retrenchment somewhere and at some time. There must be a limit at some point to the taxes, and to a certain extent to the expenditures. Increasing by increasing the number of officials and employees under the System. Councilmen report that the salaries of the city officers are now $1,200,000, and that it costs the city that sum to collect and expend $4,500,000 of revenue. All persons willing to contribute to the city, in return for benefits, hold them to the public still and by no Divine right. If offices are created for the public service, but not for the profit of officeholders. If the Common Council find that the city can dispense with the services of a large number of persons, and does actually dispense with those services, and does secure equally efficient service for less money than it now pays, and that by those reforms $1,200,000 can be saved during the year, then the Common Council will be guilty of a criminal disregard of their duty if they do not reduce the Auditor of that amount by $1,200,000.

The issue of Chicago is a tax-paying community is already sufficiently known abroad; our municipal taxes are enormous. The city of Philadelphia raised only $7,000,000 last year, without actually, but then it is a city of millions of people, and has a property so large that three times as great as Chicago, and yet we levied last year between seven and eight millions of dollars of tax in the city. It is true, we collected a part of the taxes on the city property by an assessment of improvements, ground and personal, and that much of our tax is to pay the interest and principal of money which we borrowed for this purpose four years ago; but we must also allow the fact that 15 per cent of the taxes in the hands of the collector are never collected, and that the city expenditures of the government can be delayed by a tax of thirteen mills; and that the Common Council has the power and duty to reduce the salaries of the officers of the city, and the city expenditures for the current year, although the taking of those sums would help the Council. To do this requires the discretion of disinterested citizens and bankers, of several superintendents, and a reduction of all salaries over which the Common Council has the power. Those salaries are practically protected against the change; they are at work enabling sympathy among their neighbors, but the Aldermen are hunted by their colleagues at every degree and knowledge, not to cause, this or that person's salary. THE NEW DEPARTURE IN MEMPHIS.

The Memphis Avalanche has been a very able, by the way, whatever else it may be, it has given great arguing for the Liberals, in favor of the repeal of the constitutional amendments should be declared null and void, as having been obtained by force, and as not having been legally obtained at all. It has concluded, along with Vallandigham, that no ball of the Southern people will ever be opened by voting the bayonets from the touch; and it comes out, therefore, in favor of the most timid and suicidal acquiescence in the decrees of fate. It says:

"It is useless to argue that these amendments were carried by force, and that the use of that force caused the surrender at Appomattox. After all, it matters little from what cause a result flows, the vital point is, does it exist? Is it a fact? Is it a fact that the Union is restored? Is it a fact that the Union is restored? Is it a fact that the Union is restored

THE ANNUAL TRIBUTE.

Floral Offerings to the Fallen Soldiers by the Union.

Decoration of the Graves of the Volunteer Dead.

Dedication of the Ransom Monument at Rockford.

Observance of the Occasion in Other Cities.

CHICAGO.

AT BOSWELL CEMETERY.

With the Company of Chicago, the greatest preparations for the observance of the day, the return of the remains of the Illinois soldiers who fell in the late war, the dedication of the Ransom monument at Rockford, the Amphitheatre, and more especially the fact that many fathers were now taking their children to the cemeteries to be initiated in the full meaning of the day, it was evident from the first that the 30th of May would be a most memorable one. [illegible]

The last day but one of May has been set apart as a national holiday, on which are carried into execution the wishes of the fallen soldiers of the Union, and on which the living and surviving pay their tribute of love and respect to the memory of those who fell in the defense of the Union, and who sleep their last sleep in the soil for which they fought and bled. [illegible]

The Ladies of Chicago have been [illegible] for the occasion, and the result was a success. [illegible] A parade had been made for floral contributions from all quarters. Flowers were sent [illegible] and many individuals brought floral tributes to the cemetery. [illegible] Rev. T. M. Eddy, Rev. Dr. Patterson, Rev. Mr. Hatfield, Rev. Mr. Fisher, Rev. Mr. Hall, Rev. Mr. Fuller, Rev. Mr. Hall, Rev. Mr. Fuller, Rev. Mr. Hall, Rev. Mr. Fuller
